PROFESSIONAL SUMMARY

Fullstack Developer with 6+ years of experience building web applications, APIs, and e-commerce platforms using modern frontend and backend technologies. Specialized in backend development with PHP and Node.js, RESTful API integration, and modern UI development with React, Next.js, and Vue.js.

Experienced working in both startups and established technology companies, contributing to system maintenance, performance optimization, technical documentation, and scalable software solutions.

TECHNOLOGY STACK

Backend: PHP, Laravel, Node.js, Express.js, REST APIs, Swagger

Frontend: React, Next.js, Vue.js, Astro, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Databases: PostgreSQL, MySQL, SQLite

DevOps & Tools: Docker, Git & GitHub, Apache, Scrum, Jira

PROFESSIONAL EXPERIENCE

Software Developer – Frontend & System Maintenance
Phidias SAS | Sep 2024 – Apr 2026

- Developed and maintained web modules using PHP, JavaScript, HTML, and CSS.
- Implemented user interfaces based on functional requirements and existing designs.
- Performed bug fixing and evolutionary maintenance for existing functionalities.
- Executed functional testing and browser compatibility validation.
- Contributed to technical documentation and code review processes.

Frontend Developer
ScriptForze | Feb 2022 – Jul 2024

- Developed reusable components using React and Next.js for e-commerce platforms.
- Integrated frontend applications with APIs and business logic.
- Participated in technical API documentation using Swagger.
- Improved UI performance and user experience.

Backend Developer
Colegium | Jul 2021 – Nov 2021

- Developed new features and maintained the company's internal intranet system.
- Analyzed and resolved database-related issues and operational incidents.
- Implemented analytical dashboards using Grafana and Jira APIs.

Fullstack Web Developer
Mr.Domii | Jul 2019 – Jul 2020

- Developed backend solutions for e-commerce platforms using Laravel and PostgreSQL.
- Integrated and documented RESTful APIs using Swagger.

Technology & Software Development Instructor
SENA | Aug 2015 – Jul 2020

- Provided training and mentoring in software development, databases, and programming.
- Guided students in technical and academic software projects.

EDUCATION

Systems Technology with Engineering Emphasis
Institución Universitaria Antonio José Camacho | 2010 – 2014

CERTIFICATIONS

- Software Development and ISO 17024 Labor Competencies – ParqueSoft & Cali City Hall
- Technical Courses at Platzi: Scrum, Node.js, PostgreSQL, Vue.js, Information Security, Git & GitHub

PROFESSIONAL SKILLS

- Problem Solving
- Team Collaboration
- Technical Communication
- Continuous Learning
- Agile Methodologies (Scrum)

- Analytical Thinking
- Performance-Oriented Development
